(54) SYSTEM AND METHOD FOR RECOGNIZING SPEAKER

(57)Abstract:

PROBLEM TO BE SOLVED: To make use of applications for money reception and payment, balance inquiry, etc., which are provided by a bank, etc., by enabling speaker recognition without making a user go to, for example, of the counter of the bank.

SOLUTION: This system is provided with at least one of terminals 11-1-11-n and a center device 12 so that information can be sent and received. Here, a speech input means 1 (or speech input means and speech section detection part 3) is provided on the terminal side and the center device 12 is provided with a feature extracting means 4, a speaker recognition managing means 10, and a speaker recognition part 7.
